**PLATFORM OF POLICY EVALUATION COMMUNITY FOR IMPROVED
EU POLICIES AND BETTER ACKNOWLEDGEMENT (PROFEEDBACK)**

ABOUT PROFEEDBACK

Policy evaluation is a key tool in understanding, developing and modernising EU policies, thus there is a growing demand for EU-wide and high quality evaluation services. The main challenge is that currently there is no bottom-up platform for European researchers and professionals working in policy evaluation. They have limited possibilities to discuss common problems, assess country specific practices and share their knowledge in a mutually beneficial and effective way.

The PROFEEDBACK Action aims to foster the networking of the policy evaluation community at EU-level, raise awareness on the importance of evaluation policy research and improve its impact on policy-making. The Action, following a bottom-up and open approach, gathers researchers and professionals from various scientific fields and sectors to present and evaluate theories, topics, tools and methods of policy evaluation. Results of the Europe-wide assessment of good practices provide direct and high-quality inputs for national and EU bodies responsible for policy evaluation.

ABOUT THE CALL

QURES Quality Research and Support (<https://www.gures.ro/>) together with the National University of Political Studies and Public Administration (<https://snspsa.ro/en/>) is glad to announce the launch of the call for abstracts for the International Conference “**Good practices and lessons learned in the evaluation of social policies. Social Inclusion, Social Innovation, Quality of Life and Public Health**” organized under the framework of the COST Programme - COST ACTION 20112 - PROFEEDBACK (Grant Holder Institute: HÉTFA Research Institute, Hungary). The Conference will be held in **Bucharest, Romania, on 16th of May, 2024.**

The Conference aims to create the opportunity for researchers, evaluation experts and civil servants to share ideas and examples of good practices and innovative methods used in evaluation in the areas of quality of life and social policies. Thus, the Conference maintains a balanced interest in both theoretical and applied research, with a particular interest in lessons learned and innovative research methods applied in evaluation. We especially welcome abstract submissions based on novel econometric techniques, original and extensive datasets, rigorous study designs, or important policy implications. The event is designed to allow time for a full presentation and discussion of each contribution. Doctoral students and young researchers are particularly encouraged to submit their papers.

The conference will be held in a face-to-face format. Presenters should attend the Conference in person, in Bucharest. Other participants may have the possibility to attend the sessions online, depending on the received requests. The official language of the Conference is English.

There is no conference fee, but each participant will be expected to arrange and pay for their own travel and accommodation, after the conference these expenses being reimbursed, following COST rules, available at (<https://www.cost.eu/uploads/2023/11/COST-094-21-Annotated-Rules-for-COST-Actions-Level-C-VI.4-Final-.pdf>).

IMPORTANT: Travelling costs will be reimbursed within the limited of 350 Euros. Moreover, as per COST rules, daily allowance rate set for Bucharest is 187 Euros.

CONFERENCE OBJECTIVES

The primary objective of the Conference is to gather academics, professionals, policymakers, and policy evaluators from Europe and around the world and create a facilitating context for sharing ideas and good practice examples in regards with the evaluation of public policies and programmes addressing the social area, e.g., social cohesion, social inclusion, social innovation, quality of life, social and political participation and other. The aim is to showcase the latest knowledge and developments in the aforementioned fields, as viewed through an evaluation lens.

As a secondary purpose, the conference aims to facilitate discussions on how the evaluation, through the evidence that it can gather, the conclusions that it may formulate on the effects and impact of a public intervention and the recommendations address to policy-makers, can contribute to the improvements of public policies and programmes in the social area.
