## POLICY BRIEF VIRTUAL MOBILITY GRANT (PBVMGS)

APPLICATIONS FOR VIRTUAL MOBILITY OCCURRING BETWEEN THE  
PERIOD 1 OCTOBER 2024 - 31 OCTOBER 2024

CA20112

PLATFORM OF POLICY EVALUATION COMMUNITY FOR  
IMPROVED EU POLICIES AND BETTER

ACKNOWLEDGEMENT (PROFEEDBACK)

### ABOUT PROFEEDBACK

Policy evaluation is a key tool in understanding, developing and modernising EU policies, thus there is a growing demand for EU-wide and high quality evaluation services. The main challenge is that currently there is no bottom-up platform for European researchers and professionals working in policy evaluation. They have limited possibilities to discuss common problems, assess country specific practices and share their knowledge in a mutually beneficial and effective way. The PROFEEDBACK Action aims to foster the networking of the policy evaluation community at EU-level, raise awareness on the importance of evaluation policy research and improve its impact on policy-making. The Action, following a bottom-up and open approach, gathers researchers and professionals from various scientific fields and sectors to present and evaluate theories, topics, tools and methods of policy evaluation. Results of the Europe-wide assessment of good practices provide direct and high-quality inputs for national and EU bodies responsible for policy evaluation.

### **ABOUT VIRTUAL MOBILITY GRANTS**

The Virtual Mobility Grants (VMGs) provide financial support for collaborative work carried out in a virtual setting. The purpose of VMGs is to directly contribute to Action deliverables. The VMG application is open only to PROFEEDBACK members.

### **ABOUT POLICY BRIEFS**

Among its objectives described in our Memorandum of Understanding PROFEEDBACK aims to produce policy briefs based on empirical evidence of evaluations to help improving the effectiveness and efficiency of policies. In this call, we would like to support initiatives that contribute to this objective of PROFEEDBACK.

By policy briefs we mean short documents that are easy for decision-makers to understand and review, focusing on designing key elements of a specific policy, and support improving the efficiency and effectiveness of policies by briefly outlining the impact of decisions summarizing the circumstances and considerations that a decision-maker needs to take into account when making a policy decision.

In this call, we will support policy briefs that:

- contribute to the effective, efficient or effective design of each selected policy, or
- provide methodological recommendations for carrying out evaluations that can help to organise or adapt policies effectively, and
- present an empirical argument for these policy summaries based on evaluations, and
- this is accompanied by short (5-10 pages) documents with graphical elements that are understandable to policy makers and convey the message.
