CONFERENCE CALL

SHAPING THE FUTURE: EVALUATING PROGRAMS AND POLICIES IN PUBLIC EDUCATION AND YOUTH DEVELOPMENT

18-19 JUNE 2025
BUDAPEST, HUNGARY

HÉTFA Research Institute is glad to announce the launch of the call for abstracts for the conference “Shaping the Future: Evaluating Programs and Policies in Public Education and Youth Development” organized under the framework of the COST Programme - COST ACTION 20112 – PROFEEDBACK (Grant Holder Institute: HÉTFA Research Institute, Hungary). The conference will be held in Budapest, Hungary, on 18-19 June 2025.

The call for papers is now open, and submissions on all relevant topics related to Evaluating Programs and Policies in Public Education and Youth Development are warmly invited.

Please feel free to share this invitation with anybody you believe might be interested.

ABOUT PROFEEDBACK

The Action PROFEEDBACK (Platform OF policy Evaluation community for improved EU policies and Better ACKnowledgement) aims to foster the networking of the policy evaluation community at EU-level, raise awareness on the importance of evaluation policy research and improve its impact on policy-making. The Platform, following a bottom-up and open approach, will gather researchers and professionals from various scientific fields and sectors to present and evaluate theories, topics, tools and methods of policy evaluation. Results of the Europe-wide assessment of good practices will provide direct and high-quality inputs for national and EU bodies responsible for policy evaluation.

Policy evaluation is a key tool in understanding, developing and modernising EU policies, thus there is growing demand for EU-wide and high quality evaluation services. The main challenge is that currently there is no bottom-up platform for European researchers and professionals working in policy evaluation. They have limited possibilities to discuss common problems, assess country specific practices and share their knowledge in a mutually beneficial and effective way.

CONFERENCE OBJECTIVES

The primary objective of the conference is to bring together academics, professionals, policymakers, and policy evaluators from Europe and beyond. The aim is to create an environment that encourages the exchange of ideas and best practices related to the use of participatory methods in evaluating public policies and programmes.

Evaluation plays a crucial role in European education and youth policy, helping to ensure that initiatives meet the diverse needs of children and young people across the continent. By systematically assessing the outcomes and impacts of these policies, we can better understand which approaches are effective, which are not, and the reasons behind these results. This evidence-based approach helps refine policies and ensures that resources are used efficiently to promote educational equity, social inclusion, and youth empowerment. In a constantly changing world, ongoing evaluation also helps adapt policies to new challenges, making sure that Europe's young people are equipped with the skills and opportunities they need for future success.

CONFERENCE TOPICS

The conference will focus on evaluations carried out in education or youth policy or programmes. The evaluation or impact assessment can be policy-, programme- or project-oriented.

Evaluation or impact assessment of youth or education policies and programmes include the following topics.
