ABOUT PROFEEDBACK

Policy evaluation is a key tool in understanding, developing and modernising EU policies, thus there is a growing demand for EU-wide and high-quality evaluation services. The aim of the **PROFEEDBACK** COST Action-funded project, running between November 2021 and October 2025, is to foster the **networking of the policy evaluation community** at EU-level, raise awareness on the importance of evaluation policy research and improve its impact on policy-making. The Platform, following a **bottom-up and open approach**, gathers researchers and professionals from various scientific fields and sectors to present and evaluate theories, topics, tools and methods of policy evaluation. This objective will be achieved by the **assessment of good practices** that will provide direct and high-quality inputs for national and EU bodies responsible for policy evaluation.

ABOUT THE PROFEEDBACK CONFERENCE

In the framework of the PROFEEDBACK Action, conferences are organized on a **half-yearly** basis. They provide opportunity to analyse specific topics in general and through different theories and methodologies. The goal is to maximise the outreach of the audience and reinforce the dialogue with general public.

ONLINE PARTICIPATION OVERVIEW

All sessions are going to be broadcasted via Zoom, we will send out the links based on the registration.

LOGISTICAL INFORMATION

Conference Address: Budapest, NTAK: SZ19000074, Bem rakpart 33-34, 1027

Please note that participation in the conference is subject to prior registration. Additionally, attendees have the option to request lunch through the registration form.
